

CHECKLIST

Pet Safety

Home

- Make sure pets are secure prior to opening doors/windows for ventilation
- Keep pets away from kitchen while cooking or baking
- Store cleaning supplies and chemicals out of reach of pets
- Install covers on vents and crawl areas your pet may try to access

Yard and Grounds

- Check plants to make sure they are safe and remove toxic plants
- Fence off pool and use a self-closing gate that opens outward
- Keep pets on leash when outdoors, and consider using identification chip
- Talk to your vet about flea and tick prevention options best for your pet

Fire

- Use cable covers on electric cords to reduce risk of chewing and damage
- Never leave pets unattended with open flame or in-use fireplace
- Install stove knob-covers, especially if your pet likes to climb on counters
- Keep outdoor pet house away from walls, trees, or other flammable areas
